

SHARKS BUSY IN STRICKEN CITY

Widows of Entombed Miners Warned Against Operations of Shyster Lawyers

RELIEF WORK FULL OF SAD INCIDENTS

Women Refuse To Return To Italy, Preferring To Raise Their Children In America—Red Cross Busy

CHERRY, Ill., Nov. 17.—Investigation made today by Attorney George Gordon and Charles Henry Hyde, representing the Italian consul, disclosed alleged questionable activities of certain lawyers seeking to represent the widows of the miners who were entombed in the St. Paul mine. The consul, Guido Salotti, and his aides assisted several cases among Italian women who, bereft of the breadwinners of their families, were approached by lawyers who had sought to impose on their ignorance.

RED CROSS CHARITY

In the Little Knights of Pythias hall, where E. P. Red Cross representatives, dispensed charity, the sad faces and dull eyes of women petitioners for aid were in contrast to the activity of the relief agents.

WILL STAY IN AMERICA

Consul Salotti, returning from his visit to the young women, children, babies, with one to the world to them on. One of the dead had a wife and nine children in Italy. The women many children working for homes in the United States.

LAYS CLAIM TO HALF OF PUEBLO

PUEBLO, Colo., Nov. 17.—Candido B. Dodderick of Succor, N. M., claimed his action to recover \$2,000,000 acres of land in Pueblo, Colorado, last week. He claimed that he had been given a quit claim deed by C. H. Watkins of Cuyahoga, Ohio.

FRENCH GOVERNMENT TO HELP THE STOWAWAY

WASHINGTON, Nov. 17.—Although the French embassy has requested that M. Vergonjeanne, who is traveling around the world on a water tank, be allowed to cross the United States, the French government general of immigration today said that the request could not be acted upon until the department of commerce and labor had been advised of the facts.

MAKES CONFESSION OF ROBBERY AND MURDER

CHICAGO, Nov. 17.—Stephen Blackwell, 18 years of age, a laborer, who was arrested in a laundry here, made a confession today according to the police that he and a companion choked and robbed Andrew Pelligrini, 62 years of age, a wealthy stockman.

INJURED IN FOOTBALL

TRINIDAD, Colo., Nov. 17.—Ben Bartholomew, 17 years old, was fatally injured in a football game today. He was kicked and internally injured.

EUREKA MECHANIC FLIES AEROPLANE

Builds Monoplane on a Model of His Own and Sails 3-4 of a Mile

EUREKA, Cal., Nov. 17.—Blaine Seligson, a young mechanic of this city, in a monoplane of his own construction, made a trial flight this evening of three-fourths of a mile at an average height of three feet, in one minute and a half. Seligson has been at work on his monoplane for more than a year. He not only constructed the machine, which is built on the monoplane model, unassisted, but also made himself the twenty-horse-power four-cylinder engine with which it is driven.

SANTA FE NEEDS A DOUBLE TRACK

Official Says Company Is Gradually To Construct a Second Line of Rails

LOS ANGELES, Nov. 17.—Continuation of a recent report that the Santa Fe Railroad company is considering the construction of a double track in the Los Angeles to the Pacific coast is confirmed in the statement made today by W. R. Hodges.

SEVEN YEARS FOR MURDER

TAUNTON, Mass., Nov. 17.—Frank L. Hill, the fourth defendant in the fatal shooting of a woman, was sentenced today to seven years in the state prison.

BUTCHERS ARE ARRESTED FOR USING A PRESERVATIVE

TACOMA, Wash., Nov. 17.—Justice Card issued warrants today for the arrest of twelve butchers charged with using chemicals for the preservation of their stock.

ASTOR IS MISSING IN WEST INDIES

New York Millionaire May Have Suffered Accident in the Recent Hurricane

NEW YORK, Nov. 17.—John Jacob Astor, who is abroad his journey, has not been in communication with New York for twelve days, and it is probable that he has been killed.

INSURGENT TRIALS END

MANHATTAN, Nov. 17.—Judge Powell today completed, at John, the trials of the remaining members of the bandit crew.

HEAVY RAIN IN HAITI

CAPE HAITIEN, Haiti, Nov. 17.—The rainfall here during the two weeks ending November 14th is officially recorded at 29.4 inches.

DISPUTE OVER LYONING CAUSES A MURDER

CAIRO, Ill., Nov. 17.—Henry Small and Edith Williams, both here, were charged with the murder of Miss Annie Pelley.

"SUGAR RING" HAD GREAT POWER

Were Able To Stifle Investigation For Years and Control Federal Service

SECRETARY SHAW HELPLESS TO ACT

Government Sampler Corra Was Discharged 7 Years Ago For Trying To Have the Crooked Work Probed

NEW YORK, Nov. 17.—Henry C. Corra, who was employed as a government sampler at the American Sugar Refining company's docks in Jersey City, added today to the material today in the control of the federal service, charged to the company and to various customs officials and employees.

NO UNION MEN WANTED TO WORK IN HEART MINES

DEADWOOD, S. D., Nov. 17.—The Heart Mine Mining Company, known as the "Heart mine," today issued a statement notifying its men that after January 1, 1910, the company will employ only non-union men.

CAR PROBLEM IS TALK OF MEETING

Commissioner Loveland Says California Is Ready To Repeal Demurrage Law

WASHINGTON, Nov. 17.—Despite opposition to the 48-hour rule and failure to convene a conference of the National Association of Railroad Commissioners today adopted a platform of state and interstate transportation.

ABANDONS PLAN FOR SECOND CANAL

PACIFIC COAST, Nov. 17.—Luis A. Durand, the Chilean engineer, has definitely determined to abandon his efforts to obtain from the Chilean government a concession for his canal project.

ACQUITTED OF FORGERY

KANSAS CITY, Nov. 17.—Robert J. Mooney, a mining promoter of Deadwood, S. D., charged with forgery, was acquitted by a jury in the criminal court here last night.

LEFT MULE TO KICK HUSBAND TO DEATH

PITTSBURGH, Nov. 17.—Mrs. James Edmunds of Washington county is alleged to have deserted her home recently, taking with her the household effects and five head of cattle, but leaving behind an old mule.

HILL BUYS APPLES FOR ENGLISH PATRONS

SPOKANE, Nov. 17.—The interest of James J. Hill, chairman of the Great Northern railroad, in the local apple show now being held in Spokane, was shown by the receipt of an order from him today for five boxes of apples at \$10 a box, which will be distributed among the local and titled stockholders in the Great Northern railroad.

WILD CAT MEAT IS AT PREMIUM

San Francisco Chinese Continue To Fear Tong War; Glad To Go To Jail

SAN FRANCISCO, Nov. 17.—Wildcat meat is at a premium in the Chinese quarter in the city as a result of the strife between the Yee family and the On Yick tong, which has brought about six murders in or near San Francisco since November 1.

FIVE DOLLARS EACH FOR SLUGGING

Witness in Bomb Explosion Case Says He Was Paid To Attack Non-Unionists

ADMITS DOING SEVERAL "JOBS"

Was Afraid of Dynamite and So Refused To Take Part in Blowing Up of the Chicago Door Factory

CHICAGO, Nov. 17.—The slugging of non-union men, the setting on fire of buildings because union carpenters were not employed upon them and the preparing of dynamite bombs were told today in the testimony of Vincent Veria, principal witness for the prosecution in the trial of Vincent and Joseph Altman, indicted in connection with a bomb explosion that partially wrecked the St. Charles and Door company in May, 1908.

DEAD MAN'S BODY FOUND IN SLIME

Supposed To Have Been Murdered By Tramps—Almost Beyond Identification

LOS ANGELES, Nov. 17.—Lying half buried in the mud and sludge of a wash near the Southern Pacific tunnel at Santa Fe, the body of a man was found by Deputy Sheriff Ybarra today.

FATAL COLLISION IN SOUTH CAROLINA

Fireman Is Reported Killed and Several Others Hurt in Wreck of Florida Mail

REFUSAL TO SELL TO NEGRO IS UPHELD

DES MOINES, Nov. 17.—The Iowa supreme court handed down a decision today holding that a private business concern under the Iowa statutes could legally refuse to serve a negro.

W. H. GLEASON DIES

EL PASO, Nov. 17.—W. H. Gleason, well known in mining circles, died here today. He was a member of the El Paso Mining and Smelting company.

TWO MINERS SUFFER VIOLENT DEATHS

MANHATTAN, Nov. 17.—An all-night session concluding today the Finnish diet reflected the government bill providing for Finland's contribution to the Russian military appropriation. A resolution was adopted requesting the emperor to reintroduce the measure in a constitutional form.

USES HIS SKILL TO BREAK JAIL

SHERIDAN, Wyo., Nov. 17.—A. S. Sheridan, a Chicago vaudeville performer, known as the "handful king," who is in jail here charged with larceny, today showed his skill in breaking out of jail.

MALAY CANNOT BECOME CITIZEN

Los Angeles Judge Refuses Papers to Man of French-Ceylonese Blood

LOS ANGELES, Nov. 17.—No member of the Malay race is eligible to citizenship in the United States, under a decision of Judge Withers delivered today.

Some Denunciation of Managers For Not Opening Up Shafts on the Part of the Ignorant Town Residents

LEMON GROWERS GO INTO COURT

Seek Injunction Against Increased Railway Rates By Papers Filed in Salt Lake

SALT LAKE, Nov. 17.—Lemon growers of Southern California brought their grievances against the railroad companies into the United States district court here today by filing a petition for an injunction against the raising of the freight rate on lemons pending the hearing of a complaint already lodged with the Interstate Commerce Commission.

FOUND DYING ON TRACK

RAKERSFIELD, Nov. 17.—The mangled body of Estavan Sandoval was found beside the Southern Pacific track at Mojave about midnight last night. The man died while being brought to Rakersfield this morning.

PLATINUM MINING WILL PAY PROFIT

Heavy Metal Can Be Taken From the Sands of Pacific Coast, Says a Geologist

LOS ANGELES, Nov. 17.—David T. Day, United States Geological Survey, director of government petroleum work on the Pacific coast, left here tonight to make a report to the government in Washington on his work in charge of the research work in connection with platinum mining on the coast.

FINNS REJECT RUSSIAN BILL

HELSINKI, Finland, Nov. 17.—At an all-night session concluding today the Finnish diet reflected the government bill providing for Finland's contribution to the Russian military appropriation. A resolution was adopted requesting the emperor to reintroduce the measure in a constitutional form.

RESCUE HOPELESS

PROVIDENCE, R. I., Nov. 17.—The rescue of the miners who were entombed in the St. Paul mine, which was sealed off for weeks and perhaps months before the mine could be called off, was today declared to be hopeless.

VERGE ON INSANITY

Some of the women continue to linger about the ground. So great has been the mental strain the last four days it is feared that many women are on the verge of insanity. One woman who declared that she and her husband were still living in the mine, actually invited the officials to open the shaft, and then fell in a senseless heap.

pany's grounds and allowed crowds to gather near the shaft.

Details of what was being done were announced. As Mining Engineer, the lowered a thermometer through a hole into the lid of the shaft, to test the degree of heat another man announced through a megaphone:

"One hundred and fourteen degrees near the top."

HEAT TOO GREAT.

Riva lowered the thermometer to the 300 foot depth of the shaft and a moment later the voice rang through the megaphone:

"One hundred and seven degrees at the bottom."

"Why," cried a chorus of voices, "that's good; they can go down in that. We can stand 114 degrees in the sun; surely they'll go down in that."

But this burst of confidence was soon destroyed.

It was explained that owing to the gas in the mine, oxygen bottles would have to be worn by the rescuers, and that a much larger degree of temperature than in ordinary conditions was necessary for those who wore helmets. Moreover, it was said that if the seal were opened, fresh air rushing in would fan the fire and flames would be leaping high.

"If the fire continues, will the bodies ever be recovered?" was asked on all sides, when it became known that a rescue party would be sent down for the bodies that had been killed.

"We have gone over every detail of the situation," said Commissioner Traver, of the investigating board. "We have pondered over the maps of the mine—we have heard the opinion and advice of every one who is familiar

Why You Should Use American Block Coal in Your Kitchen Stove

Did you ever notice that when your draft is open your coal never heats the oven?

Coal, requiring forced draft, forces the heat up the chimney instead of allowing it to circulate around the oven.

American Block coal burns readily without draft and heats ovens at once. A quick meal makes fuel always. A cook can save \$3.00 a month with American Block coal.

with the mine. Our only thought is to get out the bodies if it is within human power. That's all we can look forward to."

In order for troops to guard the spring of sleeping cars and the private car of President Harding was given by Sheriff Skoglund after repeated rumors that plotters would blow up the train.

MORE MILITIA.

Late in the day it became known that another company of militia is being held in reserve at Mammoth ready for any emergency.

The demonstration of feeling on the part of survivors created much uneasiness among mine officials, experts, charity workers and others who have business here.

This led Sheriff Skoglund to take immediate action and at dusk he asked the railroad officials to remove the troop cars, stationed several hundred feet from the mine, up beside the special cars, which are serving as a temporary hotel.

"I want to assure every one who has any fear for his safety that he will be protected," said the sheriff.

"Regarding rumors of threats of secret society meetings and such things of an alarming nature, I have nothing to say."

Sheriff Skoglund ordered the soldiers to remain quietly in their cars. Their presence excited no comment from the sorrowful men and women.

BITTER WORDS.

Point-up grief and anger were unchecked by officers today and even when an orator mounted the sand-scaled shaft of the mine, the sheriff, single-handed, calmed the situation.

The climax came when James Withersell, a veteran miner, leaped to the shaft and hurled the crowd of weeping women and sullen men.

Withersell condemned the acts of the authorities since the disaster at Leadville. "When you entombed 114 men, you buried alive," he made no threats, but the fierce interjections of members of his audience revealed their feeling against the mine owners and mining officials.

"The men are buried alive," shouted Withersell. "They were alive Monday night, but they died when these mine experts shut off the air. Can a man breathe through four feet of sand?"

"I tell you they were crushed!"

"DUE TO CARELESSNESS."

Charging mine experts with ignorance of the way to save men's lives, and saying that their deaths were due to carelessness and blunders, Withersell asked his hearers: "What does a man from a college know about a mine? These men who own this hole know nothing about it except the figures they get from the men under them. What can a man know of a man from figures and books?"

"What are these experts doing?" asked a young man in Withersell's audience.

"They are eating and sleeping in the cars," said another.

"Yes, they're eating and sleeping while they smother the men to death and refuse these poor women food," said another.

Withersell's talk evidently was exciting his hearers and the crowd surrounding him was growing larger when Sheriff Skoglund induced Withersell to leave.

Withersell was not employed in the mine. He came from England when a boy, and worked in the mines in England, Wales and West Virginia.

STOCKTON, Nov. 17.—John Koster, a laborer who had been employed on the road work in the Yosemite valley, committed suicide this evening by taking carbolic acid. At various times the past three years he has lived here. The man was without funds and despondent.

TERRIBLE INDIGESTION

San Joaquin Drug Company Has a Remedy That They Guarantee to Promptly Relieve All Stomach Distress.

People go on suffering from little stomach troubles for years and imagine they have a serious disease. They over eat or over drink and force on the stomach a lot of extra work.

But they never think that the stomach needs extra help to do extra work. If these people would take a Mi-na-na tablet with or after meals it would be a great help to the stomach in its strain of over work.

No matter what you eat or drink, Mi-na-na tablets will sweeten your sour stomach and stop gas belching in five minutes. The heaviness disappears and the stomach is greatly aided in its work of digestion.

And Mi-na-na not only promptly relieves all distress, but if taken regularly will absolutely cure indigestion by building up the fatty overworked walls of the stomach and making them strong enough to digest the most hearty meal.

San Joaquin Drug Company sells and guarantees Mi-na-na. The price is 50 cents a large bottle. Lending drug stores everywhere sell Mi-na-na. Two sample free from Booth's Mi-na-na, Buffalo, N. Y.

CONSOLIDATED CUTS ROYALTY ON SEEDER

It Is Reduced From \$15 To \$5 a Ton

Belief That Competition By Giffen and Other Independents Forced Move

According to information received from San Francisco last night, the Consolidated at a meeting held there yesterday reduced the royalty for the use of patented seeders from \$15 to \$5 a ton. The reduction takes effect December 1st.

The purpose of this latest move of the Consolidated became the subject of much speculation last night among raisin men who were heard the news. That the upward trend of the raisin market forced the cut on royalties was the generally accepted view. Royalty payments have been a serious handicap to the Consolidated packers in their competition with the independents, who pay little or no royalty. Three-quarters of a cent, which is what \$15 a ton amounts to, is no small matter, especially when competition forces close selling. The policy of the Consolidated has been to cut down the price to the growers so that the 3-cent could be added and still the goods offered to the trade at a low figure.

But when Giffen & Co. cornered the bulk of the raisins and at the same time stiffened the price, the Consolidated people were practically unable to compete. Their goods cost them more and the manufacturing cost was nearly 4-cent greater. The Giffen Co. pays only \$2.50 a ton—just half the reduced figure that the Consolidated packers will have to pay. The \$10 reduction on royalty will now give the Consolidated packers 15 cent advantage over their former condition and it is taken by some to mean an advance in the present price to raisin growers. The price now is 25 cent from 24 to 25, that practically no sales are being made, but 3 cents, it is generally believed, would clean up the raisins still on the farms.

It is stated that \$5 a ton is the lowest the Consolidated has been for years. Last year it was forced up to a cent, but this could not be maintained. This year during the busy part of the year it has been held firmly at \$15 a ton.

WILL ASQUITH ASK FOR NEW PEERAGE

Much Speculation As To the Next Move To Be Made Upon the House of Lords

LONDON, Nov. 17.—Walter Runciman, president of the board of education, speaking at Hull today, made the important announcement in behalf of the government that it would refuse to entertain any negotiations or compromise with the peers regarding the present situation. Some prominent Liberals still are of the opinion that Premier Asquith will resign on the rejection of the budget. Others believe that he will ask the king to create a large body of Liberal peers, recalling that the Irish church disestablishment bill was allowed by the lords on Gladstone's threat to create a new body.

TARIFF REFORM.

Balfour's speech at Manchester tonight attracted followers inasmuch as it adopted tariff reform as the party cry. As to his exact views on tariff reform, Balfour was silent except to say that he would not touch tariff reform "if it were to increase the ordinary cost of living of the working classes."

A striking point in Mr. Balfour's speech was the admission that tariff reform is the only practical alternative to Chamberlain Lloyd-George's budget—an important admission, which seems to indicate that the leader of the opposition has been won over to acceptance of tariff reform as a plank in the Unionist platform.

Balfour's speech was mainly a denunciation of the budget and an appeal to his audience by his representation that tariff reform would be especially beneficial to the cotton industry, which was seriously threatened by European, American and Japanese competition and the growing difficulty of obtaining sufficient raw material.

Balfour contended that German and American prosperity had grown up contemporaneously with the imposition of high protective duties.

He gave his party no special lead for the coming campaign but expressed approval of Lord Lansdowne's motion to reject the budget, of which formal notice was given in the House of Lords yesterday.

Balfour argued that, while the House of Lords no longer was the equal of the House of Commons in authority, it would be fatal to the country's institutions if it were deprived of power to say that some matters were so grave as to necessitate an appeal to the people. The main function of the lords, said Mr. Balfour, was to see that the British government was a popular government.

IRISH TO HELP LIBERALS.

The Liberals in the campaign apparently will concentrate their attack on the House of Lords, in which they will have the energetic assistance of the Irish party. John Redmond, leader of the Irish party, speaking in Dublin tonight, declared that they refused to throw themselves into the arms of the tariff reformers or to back up the House of Lords, Ireland's deadly enemies. The Nationalists had long urged, he said, to be able to strike a blow at the lords.

IN THE LODGE ROOM.

RAISIN CITY LODGE.

Raisin City Lodge No. 252, T. F. B., held a very pleasant meeting in Elmer's hall last night. After the transaction of business the lodge enjoyed the following program: Piano solo by Miss Edna Dyer; reading by Mrs. Miller; solo by Mr. Berry; reading by Miss Della Brexton.

Mr. Brambley made an address on the content of Raisin City Lodge and No. 252, Fraternal Brotherhood. After the address 200 were served with refreshments and dancing concluded the evening.

PYTHIAN SISTERS.

Pythian Sisters held a busy and interesting meeting last night. The attendance was unusually large. Two applications were received and it was a busy night in the next meeting. Two weeks from last night. Officers were nominated and a pleasant social evening spent.

FORGER TRIES TO OPEN HIS VEINS

LOS ANGELES, Nov. 17.—Soon after being held to answer to the Superior Court today on a charge of defrauding the management of a local hotel out of \$250 by means of an alleged worthless draft, Luis Gonzalez, said to be the son of a wealthy landowner of Puebla, Mexico, made a desperate attempt to commit suicide by trying to open an artery in his wrist just as he had been placed in the patrol wagon to be taken to the county jail. He was overpowered by an officer and kept under a close watch until he was given in custody of the sheriff. Gonzalez has a wife living in San Francisco with her parents.

O'CONNOR WELCOMES ENGLISH QUARRELS

PROVIDENCE, R. I., Nov. 17.—T. P. O'Connor, member of parliament, said tonight:

"I hail with joy the announcement that the House of Lords has resolved to reject the budget. It marks the beginning of the end of the mischievous power of that assembly to retard all progress and reform, and especially all progress and reform in Ireland. The lords will, however, be hindered on only inevitable, but will accelerate its advent perhaps by a year."

GIRL'S CONFESSION IS TOLD IN COURT

Defendant's Attorney Shuts Out Evidence As To Her Relations With Other Men

AUBURN, Cal., Nov. 17.—"I killed Joe because he threw me down. I gave him money and did everything for him, and I told him I would kill him if he ever gave me up. I killed him and I'm glad of it, and I expect I'll hang for it."

Such was the confession of Alma Bell, declared by Sheriff McAuley on the witness stand today as having been made to him by the girl the day after the tragedy when she was found cowering in her hiding place among the bushes near High Ridge, a few hundred yards from the place where her lover's body was found. The girl had questioned the girl particularly as to her relations with Joe Armes, for whose death she is now on trial. According to the witness, she admitted that she had been intimate with Armes, but denied, the sheriff said, that she expected to become a mother. Sheriff McAuley was asked as to further conversation between himself and the girl.

"I asked her if she had been intimate with other men," he replied, only to be cut sharply by Attorney L. L. Chamberlain for the defense, who objected and intimated that this reply was part of a prearranged plan to bring in, seemingly and inadvertently, testimony tending to blacken the character of the defendant. The reply was ordered ruled out.

Manager of the Tony Gilanko told again the story of events in the cabin the night of the shooting and of the pistol shot they heard a few minutes after Alma Bell and Joe Armes left the place together.

When Mrs. M. Fitzgerald, to whom Alma Bell came immediately after the shooting, the prosecution sought to introduce her testimony from the transcript of the preliminary examination. After objection had been made by the defense and overruled by Judge Arnot, the testimony was read by Attorney Hamilton for the prosecution.

This testimony recounted that Alma Bell had called at the Fitzgerald home and after being met by Mrs. Fitzgerald, she had killed Joe Armes, had said that she was going to kill herself also.

"Go somewhere else, then," Mrs. Fitzgerald testified she told the girl. "I don't want any trouble around my house."

The bullet that caused Armes' death was put in evidence through the testimony of physicians who conducted the inquest, but its introduction failed to awaken the girl's defense to a repetition of the hysterical sobbing which overpowered her yesterday when the blood-stained garments of the man she loved were exhibited before her.

IS NO TRUTH IN PINCHOT STORY

WASHINGTON, Nov. 17.—"The story that I have issued an ultimatum to the president is like the story of the spring of water," said a silly fabrication of the kind, nor anything that could be twisted into that meaning. The president was good enough to express his confidence in my work, and I am going along with it."

Gifford Pinchot, the government's chief forester, in a statement issued today, thus disposed of the reports published this morning that he had sent a letter to the president threatening to resign if Secretary of the Interior Ballinger remained in the cabinet.

Secretary Ballinger was one of the cabinet callers at the White House yesterday and when he left the president's office he displayed his usual good humor in listening to many questions as to the so-called Ballinger-Pinchot feud. The secretary said he had merely taken up routine departmental matters with the president.

Bright's Disease

That chronic Bright's Disease is now being cured by treatment that reduces inflammation in the kidneys is beginning to be generally known.

We copy the following from the San Francisco Bulletin, June 22nd, 1908:

"The recovery is reported of Mr. Z. Lawton of 264 Fifth avenue, San Francisco. The case is especially interesting, due to the fact that books declare chronic Bright's Disease incurable and five city physicians had passed on and diagnosed the case. The usual symptoms found in extreme cases were reported—excessive dropsy, enlarged heart, and toward the last the patient could only sleep sitting up, and for six weeks he slept in a chair. Lawton had a cousin, Mrs. W. E. Hoover of Auburn, who also had an advanced case of Bright's Disease. She had been tapped three times when she heard of Lawton's renal compound and made a fine recovery. This interested Lawton in the treatment and it resulted in his recovery also."

Some members of Excelsior lodge, and many members will recollect his serious predicament and that they thought they would be called on to pass him over."

Parities desiring to know more of this treatment can get full literature by addressing the John J. Fulton Company, 212 First street, San Francisco, Cal.

Fulton's Renal Compound can be had in water of a agent, the Patterson Block Pharmacy.

We desire every patient to write us who is not getting the usual improvement by the third week.

What rare opportunities here for the suit buyer now! The very largest and best stock—much misused words, but our right to them is certainly beyond dispute or question—from which to choose your winter suit, & our selling season so far advanced we are letting them go at bargain prices.

In this matchless assortment of man-tailored Suits, the most fastidious can certainly be pleased. There are wide wale diagonals, fine French serges and worsteds, tailored by master tailors. Style, dignity and becomingness as conspicuous as a bright moon in a cloudless sky.

This is the way we close out the top-notchers—they are "absolutely the top-notchers"—price quotations up to \$100 elsewhere notwithstanding.

Values up to \$75 \$45
Values up to \$55 \$35

Three-cent Raisins

THREE-CENT RAISINS

The effort of the packers to make three-year contracts for raisins at 3 cents a box means that in the judgment of the men in the industry closest to the market, raisins will be worth that much or more for the next three years. It means that the two "lean years" just passed are not expected to recur at least for three seasons. It means general prosperity for city and country. While Fresno is not nearly so dependent upon the raisin industry as formerly, still the general distribution of money to the largest number of people still comes from raisin proceeds.

The practical question to the grower is what to do in regard to the offer. No general advice can be given. It is admitted that 3 cents is a fair price, remunerative, but not calculated to encourage more extensive planting than the natural and normal growth of any healthy industry warrants. This price would enable raisins to be sold to the consumers at 10 cents a package. It would thereby increase consumption.

On the other hand raisins next year will doubtless bring more than 3 cents. The season will start clean and clear and the development this year of independent factors and co-operative companies, managed by commercially trained men, give assurance of an open field.

This year has shown that the country can eat, within the year, an abnormally heavy production, 80,000 tons in fact.

So it would look as if the offer for the coming year is low, but how about the next and the next? It will be remembered that the Cannery Association, at the break-up of the last growers' association, contracted for raisins at 3 1/2 for three years. It provided a very good thing for the Cannery, for raisins went higher that year and the two following. Two of the years some growers received as high as 5 1/2 and 6 cents. But if the contract had been for five years, including the last two, those who had signed up would be ahead of the game. During the entire history of the association the average price, net to the growers, was little, if any over 3 cents.

The question is simply up to the grower and he will doubtless decide temperamentally, although even a temperamental decision should be based on some knowledge. It will appeal to the "safe, sane and conservative," those who are satisfied with good returns, certainty of money and an easy mind. Those of the opposite temperament will doubtless prefer to play the game from year to year. Circumstances will also determine the careful growers' attitude. Those whose places are mortgaged and those who are bringing in new vineyards at heavy expense, will no doubt be inclined to accept a certainty.

Of course, if a sufficient number contract their raisins for three years, it will make the packer's self-interest to maintain that at least as the minimum price. That fact would doubtless boost the price higher. But unless there is a selfish motive for the packers to hold it at 3, some at least will try to beat it down. There will be bulls and bears, instead of all bulls.

This leads right up to the umbrella. Somebody, apparently, must hold it. The latest proposals by students of raisin organizing is to make this a community affair. That may be the correct solution, but this editorial was merely intended to state some facts upon which, perhaps, some thinking may be done by the growers in reference to the 3-cent three-year contract. Since it offers no advice, it at least, isn't, or ought not to be, boring.

IS IT SAFE ENOUGH?

The experts claim, we suppose with justification, that the death-mine at Cherry was one of the safest in the country. It had all the appliances required by law, and was safe if the men took care of themselves. This disaster, they say, was due to carelessness among the men.

Assuming this to be true, is a mine safe enough if it is only safe when the men look out for themselves? Is it enough if a mine (or a railroad) merely refrains from constructive murder, and takes no precautions against accident? We must reckon with the fact that most men are careless, some are reckless, and an occasional man is criminal or insane. Also, the coal mines have imported workmen most of whom are ignorant and many of whom are stupid. It is at least debatable that the owners of these mines should have some responsibility to protect each workman individually against his own carelessness. It is quite certain that they must protect the workmen generally against the carelessness of part of them. And that carelessness must be reckoned with as a fixed condition. There will be some carelessness all the time. Within the life of the mine there is sure to come some occasion of very gross carelessness. Absolute safety, against all things, cannot be safeguarded. But reasonable safeguards against certain dangers should be provided. One of these certain dangers is carelessness.

The Tribune is worried about where the Republican got its dispatch, and suspects a repetition of the Colonel Edwin Emerson episode. If the Tribune will look up its own files, commencing Colonel Emerson, it will discover a ready-made policy toward its suspicious in the present instance.

Boodler Humphreys is out on parole. One of the conditions of parole is that "he keep sober." If Emerson's policy is that he will "keep all the time," he will keep all the time.

NOT EMBARRASSING

According to the San Francisco Call, the probable candidacy of Governor Gillett to succeed himself presents a problem of great embarrassment to the leaders of the Lincoln-Roosevelt League, at their state meeting in Oakland on the 22d inst.

Why should it? No member of the Lincoln-Roosevelt League has anything personal against Governor Gillett. He is the personal friend of most of them and enjoys the personal respect of them all. If he stands for the things for which the League stands, he has as good a right as anybody, and a better right than most, to aspire to its support. If he does not stand for those things, then there is no reason why he should expect of desire that support. Either way, there is no "embarrassment" at all.

The Lincoln-Roosevelt League stands for the general reform or progressive movement in Republican politics, and it may or may not, at next week's meeting, choose to enlarge its platform so as to cover a greater number of the issues included in that reform movement. But the one central thing for which it stands, the immediate thing for which it is fighting, is the emancipation of the Republican party of California, and through it the government of California, from domination by the political bureau maintained by the Southern Pacific Railroad company, on behalf of itself and other corporations. The League stands not merely for the personal independence of its members of that control, but for organized, fighting effort to destroy that control. Any man who believes in that fight, and is willing to join actively in it, has a right to seek the League's support for Governor, or any other office. Any man who does not care to join in that fight must necessarily seek his support elsewhere.

Now, does the Call pretend, does anybody pretend, that Governor Gillett comes within this description? If that is the claim, then it is entitled to be heard, for whatever its proponents can make it worth. If anything else is the claim, then it must be made before some other tribunal. For this is the Lincoln-Roosevelt League's issue, and on this basis it will determine its course.

Also, if this is to be the claim in behalf of Governor Gillett, we suggest that it be presented by George Hatton, who has posed as his manager; by Mike de Young, who presided at the initial Gillett meeting; by Tom Dozier, who made the keynote speech at that meeting; and Tom can spin in seven keynotes at once; and by Henry Ach, Thorneill Mullaly and Tacey L. Ford, who were leading lights at that meeting. A certificate of manumission from Win F. Herrin might appropriately be read to open the proceedings. Incidentally, the party of independent reformers whom Governor Gillett selected as escort to President Taft might attend, to lend éclat to the scene. Under such sponsorship, the implacable hostility of Governor Gillett to corporate domination ought to be established to even the Call's satisfaction.

What kink has got into the Call's cranium, anyway?

PINCHOT STAYS

The rumor that Forester Pinchot was to resign, or to issue an ultimatum to President Taft or the purpose of forcing his own discharge was of course absurd. Mr. Pinchot has no intention of resigning. He has entered on a fight that is permanent, and can survive the vicissitudes of administration. He has raised an issue which has forced Secretary Ballinger to oust himself on the conservation side. Pinchot and Ballinger do not trust each other, yet, and they disagree as to policies. But Ballinger is at least "conserving" with a vengeance. That is enough to have accomplished, with one administrative difficulty. Besides, the bureau has the advantage which Pope Pius attributed to the Church, in his controversy with France. "The Church has time on its side," said the Pope. So has Pinchot. He stays, while Cabinet ministers come and go. So, as to Pinchot, he has no reason nor desire to resign.

A story comes from New York, that President Taft will compel Pinchot and Ballinger to make the peace, or else Ballinger will resign or Pinchot will be "fired." It is to be hoped that is not true, either. Not but that we could spare Ballinger. But there should be no alternative even contemplating the removal of Pinchot. From Pinchot's statement, issued last night, it seems probable, nothing of the sort has been considered.

"UNWRITTEN LAW"

They are trying a girl up in Auburn, for shooting a man, and the whole press of the state is "playing up" the case, not because, as a murder, it is more or less interesting than other murders, but there is a girl in it, and "the girl question" dominates the real as well as the mimic stage.

But, while the girl question makes it interesting, it is the "unwritten law" that makes it significant. That law has long been construed to be that a man shall be permitted to murder the despoiler of his home. Now it is extended so as to permit a girl (especially if she is pretty) to murder the despoiler of her virtue.

It is a strange "law," but the application of it is still more strange. For no woman ever yet killed a man for seducing her. On the contrary, these murders are without exception inspired by revenge because the man declines to continue and repeat the operation. So long as the adultery continues, there is no trouble. When the man breaks it off, the woman shoots him and appeals to the "unwritten law!"

Of course there is the other side. A man who will desert a woman, even in an illicit relation, is usually a contemptible cad. The woman may de-

serve as much condemnation as the man, but she is entitled to more pity. Nevertheless, are these illicit relations to be regarded as so sacred that they shall have more protection than even the marriage relation itself? A woman may not murder her husband for deserting her. Should she have license to murder her paramour?

A MERGER PROBLEM

One effect of the telegraph-telephone merger will be immensely to complicate the question of government ownership.

The telephones ought by all means to be owned by the government. They are publicly owned, in most countries, and they are a logical adjunct to the mail service in any country. This point is so plain that the acquisition of the telegraph lines for postal purposes was seriously contemplated by Congress twenty-five years ago, at a time when the general movement for public ownership had scarcely started. Whether the movement for government ownership goes fast or slow, the telegraphs should be one of the first things included in it.

The telephones, on the other hand, should be one of the last things publicly owned. Every telephone exchange is a local institution, and these are knit together by long-distance wires into state and national institutions. If the telephones were to be publicly owned, the local, the state and the national governments could present about equal claims to assume that ownership. All three could not do it, and if any one should do so it would complicate things for the other two. We may come to public ownership of telephones, some day, but it is a difficult problem, and one not to be faced except after a long experience in the public management of other public utilities. One of the first, to get that experience with, should be the telegraphs, and one of the last to which it should be applied should be the telephones. Now that the two are under one ownership, the problem is greatly complicated.

REPAIR SHIP IS WANTED FOR NAVY

WASHINGTON, Nov. 17.—In recommending a naval program for next year, Secretary Meyer will ask Congress to provide for a repair ship equipped with a complete machine shop for all emergencies, or, failing to get the repair ship, the equivalent in cost of such a craft in torpedo boat destroyers. This will be in addition to two 26,000-ton dreadnaughts, which it has long been understood the secretary would recommend.

IRISH LAND BILL PASSED BY LORDS

LONDON, Nov. 17.—The Irish land bill was passed in the House of Lords tonight with some change in amendment recently proposed by the Lords, to which the House of Commons on November 5 refused to agree.

The vote in the House of Commons on the motion not to agree to the Lords' amendment to the Irish land bill on November 5, stood 281 to 24. On moving the motion, Augustus Birrell, chief secretary for Ireland, declared that he was most anxious to come to terms as the failure of the bill would create a deplorable situation in Ireland and that effort would be made to arrange a compromise between the two houses of parliament. A committee was appointed for this purpose.

STILL HEADQUARTERS FOR ASTRAL LORE

CAMBRIDGE, Mass., Nov. 17.—A statement made recently that Dr. Percival Lowell's observatory at Flagstaff, Arizona, hereafter would be the distributing point for international planetary news instead of the Harvard college observatory, was officially denied tonight by Professor Edward C. Pickering, director of the Harvard station.

It was reported early in the month that Dr. Lowell had made an arrangement with the Central European observatory at Kiel by which international news would be handled through Kiel and Flagstaff. For many years Harvard has been the astronomical "clearing house" for America.

POLICEMAN DIES OF STRANGE DISEASE

OAKLAND, Nov. 17.—Daniel O. Curran, an Oakland patrolman, died today from an attack of ascending or Landry's paralysis, which physicians claim is one of the rarest and most fatal diseases known. Curran was stricken with the ailment, which is an acute inflammation of the spinal cord, three days ago and a consultation of doctors was necessary before the nature of his complaint was determined. The officer was awarded a medal by the department a few months ago for bravery.

The Thanksgiving Table

The art of serving your dinner is second only in importance to that of good cooking. All your needs in silverware, the most beautiful cut glass, then, for example, carvers that are genuinely good and yet beautifully made.

Our stock carries both the useful and ornamental. We recommend that you seek Thanksgiving window for suggestions.

NEW CANDIDATE TO SUCCEED DIAZ

Herberto Barron Appears As Opponent of His Former Chief, For Presidency

CITY OF MEXICO, Nov. 17.—Overnight a new candidate has been sprung for the presidency of Mexico. It is Attorney Heriberto Barron, former member of the cabinet of de Huerta, later a partisan of General Reyes for the vice presidency, and now visiting in New York.

Large posters printed in red ink, bearing the announcement of Barron as candidate of the Democratic party for president, appeared on public buildings and bill boards all over the city this morning. The announcement created much excitement and large crowds gathered to see the posters of the former member of the "Circle of friends" of the president.

ANOTHER MURDER IN GREEK FEUD

SALT LAKE, Nov. 17.—The third killing in an imported Greek feud occurred in the Greek settlement near the Rio Grande street tonight, when Gus Getis, a Greek, was shot and killed. The victim was a Greek, and was shot in the back, inflicting a fatal wound. The victim was a Greek, and was shot in the back, inflicting a fatal wound.

ENGLISH MILLIONS GO TO COLORADO WOMEN

PUEBLO, Colo., Nov. 17.—After being in controversy for more than 100 years an estate in England which may represent several million dollars will revert to several Colorado residents, according to a decision of the English courts. The estate, which has been received by Mrs. C. O. Dufug of Denver.

Mrs. Dufug, before marriage was Miss Kate Whittington and the property was owned by her great grandfather. The estate includes Sydney Castle in England and has been in litigation since 1800. The courts have just decided that the property should go to Mrs. Dufug and Mrs. Hayden of Whittington, Colo., her sister, who are the oldest living lineal descendants of Whittington.

CONFESSES TO MURDER; DOZEN PRISONERS FREED.

NOGALES, Ariz., Nov. 17.—A dozen persons altogether have been arrested here by the Mexican authorities on suspicion of having killed a young man named Moraga, on Sunday night. The case has been investigated, proving their innocence when today one of the prisoners, Ferdinand Tato, made a complete confession of the crime. The other suspects were at once given their liberty and Tato is held awaiting the sentence of L. Pujol, judge of the first instance.

"IMPROVE FARM LIFE"

CHICAGO, Nov. 17.—At today's session of the National Farm Land Congress, held at the Hotel Sherman, a resolution of South Dakota in an address on "The Call of the Farm," urged a improvement of conditions in rural districts in order that the better class of people might be attracted to farm life.

ILL HEALTH CAUSES SUICIDE

SAN FRANCISCO, Nov. 17.—Despondent because of prolonged ill health, S. Eichen, a young salesman, committed suicide today by taking carbolic acid. He was found in his room groaning in pain caused by the acid and a doctor was summoned but he died under treatment.

NEGRO FAIR IS PLANNED.

WASHINGTON, Nov. 17.—Booker T. Washington headed a committee that called at the White House today to solicit the support of President Taft for a movement which has been started by leading colored people "looking toward the holding of an exposition in 1919 to celebrate the 50th anniversary of the freedom of the negro race in America."

SELLING GIRLS FOR OUNCES OF OPIUM

MANILA, Nov. 17.—The natives of Sarangani, a group of islands to the south of Mindanao, are offering in the market young girls each for one ounce of opium, according to W. S. Lyon, a horticulturalist, who returned today from a trip through the south coast of Mindanao. Mr. Lyon is engaged in obtaining specimens of tropical fruits for the Department of Agriculture at Washington.

PRESIDENT SIMON WOULD MAKE PEACE

PORT AU PRINCE, Haiti, Nov. 17.—President Simon, on board the gunboat Liberté and escorted by a small boat, sailed for Cape Haitien today to dispel discontent among partisans of General Leconte and to effect a reconciliation between general Turrou Jean Gilles and his adversaries. It is generally felt that the president will restore public calm.

CANAL LABORERS MUST NOT BE INVEIGLED AWAY

WASHINGTON, Nov. 17.—Prompt action will be taken by President Taft to prevent contractor engaged in building railroads in South America from enticing laborers away from Panama. Last month these contractors induced 1000 laborers to leave the canal zone. President Taft will issue an executive order making the enticement of these laborers a misdemeanor.

ARMOR PLATE SUITS.

PITTSBURGH, Nov. 17.—The taking of depositions of officials of the U. S. Steel Corporation for use in cases brought by the Krupp Steel Works of Germany against the Midvale Steel Company of Pennsylvania to prevent the latter using certain processes in the manufacture of armor plate suits, closed today behind closed doors. The cases will be tried in Philadelphia. The outcome is said to be of great importance to the armor plate industry of this country.

NINETEEN INJURED IN ARKANSAS WRECK

FORT SMITH, Ark., Nov. 17.—Nineteen persons were injured, none fatally, when a St. Louis and San Francisco railroad passenger train was wrecked at Rogers, Ark., sixty miles north of here today. Spreading rails caused the accident.

GOLF INSTRUCTOR DIES.

SACRAMENTO, Nov. 17.—James Melville, golf instructor at the Del Monte links for a number of years and known to practically all golf players on the Pacific coast, died of pneumonia early this morning at the St. Mary's Hospital in this city. He was a native of Scotland, and 41 years of age.

RACE WAR CAUSES DYNAMITING OF CHURCH

TERRE HAUTE, Ind., Nov. 17.—An explosion of dynamite destroyed the front of the new \$50,000 Sacred Heart Roman Catholic church at Clinton, in the coal fields near this city, early today. The parish is largely composed of Hungarian and Bohemian miners, and there has been a quarrel between the races as to which should have charge of the church.

Our Milk Tests One-Third Richer Than The Law Prescribes

The state law says that all milk for human consumption shall contain three per cent. butter fat. Ours by constant test will be and is found to contain four per cent. butter fat, which means that it is one-third richer than health authorities decided that the state law should demand. The unusual richness of our milk is due to the excellent feeding of our herd of 325 healthy cows that furnishes us the milk for our trade. This milk is kept from spoiling while en route to our dairy by being shipped in iced wagons. There it is again cooled by machinery, then clarified by machinery which removes all impurities, after which, it is put up by machinery in sterilized, air-tight bottles ready for delivery to your home. Order today and find out for yourself how much richer and purer our milk is. Once used no other will satisfy.

Glasses for Overworked Eyes

How many hours per day do you use your eyes? Do you rest them during your noon hour, or do you read while lying down, or abuse them in some other way? Your body would break down if you worked its muscles continuously for such hours. Your eyes are far more delicate than your body muscles. We make REST GLASSES, that supply just the help needed to build up ENERGY. You may not need them to wear all the time—just the ones to save your strength when reading, writing or sewing. The future welfare of your eyes depends very largely on the CARE you take of them. NOW, Chinn-Beretta Glasses preserve them by preserving their strength.

Social and Club News

Mrs. William Forsyth, who will appear at the entertainment at Parish Hall Friday night.

several winters in Fresno and have made a number of warm friends in society. Since their last visit here, they have spent some time in traveling abroad.

The Wednesday club met yesterday with Mrs. George Haddock. Mrs. W. P. Miller gave to the club the Greek idea of immortality. The club has taken up three different versions of this subject: the Roman, the Greek and the Hebrew, finding the comparative study most interesting. Next week the members will meet with Mrs. E. E. Cook for a day on the Odyssey, Mrs. Miller leading.

The ladies of the G. A. R. sewing circle will be pleasantly entertained this afternoon at the home of Mrs. W. W. MacKen, of 101 Glen avenue.

Mr. and Mrs. L. A. Nares leave today for an extended Eastern trip visiting Chicago, New York, and other Eastern cities. They do not expect to return until Christmas.

Mr. and Mrs. George Greenwood entertained a pleasant party of young people on Tuesday evening at their home on Thessa street, in honor of Miss Grace De Graw and Elva Seay, whose marriage takes place this evening. The guests on this delightful occasion included: Mrs. Frank Veris, Mrs. John Greenwood, Mrs. Frank Hoxakin, Misses Lizzie Smith, Mary Gross, Lizzie Gross, Lizzie Falgout, Alma Gomes, Marie La Salle, Ida La Salle, Mrs. M. S. Kernan, Misses Hattie and Marie Stone.

Rehearsals for the opera to be given tomorrow night in John's Parish hall are progressing famously, and the chorus is being polished off by the rehearsal on Friday night. Miss Balthus has worked untiringly in drilling the choruses and solo singers and the affair promises to be one of the biggest musical successes of the year.

Rehearsals for the opera to be given tomorrow night in John's Parish hall are progressing famously, and the chorus is being polished off by the rehearsal on Friday night. Miss Balthus has worked untiringly in drilling the choruses and solo singers and the affair promises to be one of the biggest musical successes of the year.

The entire affair is being given by the choir of St. John's Parish, the choir members working with enthusiasm to make the evening a success.

Mr. and Mrs. George W. Beal and family have leased the St. John's Parish hall for the winter and will take possession today. Mrs. Stanford and her two sons will spend the winter in Berkeley.

Mr. and Mrs. J. R. Hickman will entertain a party of their neighborhood friends informally at dinner tomorrow evening.

The Wednesday Afternoon Card club was pleasantly entertained yesterday afternoon by Mrs. Harry J. Craycroft at her pretty new home on L street. Miss Edith Cory, Mrs. Milton Dearing and Miss Van Frankenstein substituted for absent members. Miss Lillian Dunn won the prize for high score.

On Saturday afternoon the young women of the Ergatican Circle of St. Paul's M. E. church will give a talent social in the church parlors to which they have invited all the members of the church and congregation. At this affair the members will tell in rhyme and story how the talent has increased and there will be a musical program and refreshments. The special object of the talent fund is to raise money for the care of the Sunday school room—a responsibility which the church members have taken upon themselves.

This afternoon the members of the Parish Lecture club will enjoy the second of a series of lectures which Mrs. Lou V. Chapin is giving on "Current Topics." On Friday afternoon the Home Department will meet at the clubhouse to sew for the coming bazaar.

Miss Alice Talbot of Porterville is visiting Mrs. P. S. Martin of 2413 Stanislaus street this week.

The Ladies Aid Society of the First Congregational church met for an all-day session today with Mrs. Chas. Jenney, of 219 Glen avenue. The ladies are busily engaged in preparing for their annual bazaar which, through the kindness of Mr. Bowen, will be held this year in his store on J street.

LINDSAY KEEPING TAB ON SCHOOLS

Superintendent Corrects the Test Papers

Failure in First Examination Does Not Preclude Graduation

Superintendent Lindsay is going over himself a large part of the papers turned in at the examination on the 25th of last month. According to a new rule there are to be five examinations for schools running eight months and six for those with nine months term. The second examination under the new system will be held on the 12th of next month. Incidentally it may be stated that Fresno is the only county in the state in which this system is in vogue.

The task of correcting the examination papers and grading them is really the work of the members of the County Board of Education, but Mr. Lindsay has personally assumed the task for information and self-gratification. The experiment is a new one and from the answers of the pupils to the examination questions he believes he can inform himself better as to the character of the work being done by the pupils, whether good or bad according to the schools and if bad, at least if not proof of the progress that should be expected, he will be the better enabled to ascertain what schools are deficient and give them more particular attention in that regard.

With only one examination had, Mr. Lindsay says it is too early to begin talking about practical results of the new system, though he has no doubt of the ultimate success of it, and he is confident that the best things introduced in the Fresno county school system. Even with the result of only one examination, it has been brought to his attention already that some of the schools are doing excellent work and others are not.

Mr. Lindsay wants to correct also two false impressions which he says have gone out among pupils and which have come to his notice in several instances of pupils dropping out of school because they have failed at this first examination.

It is erroneous, he says, to conclude that failure at the first examination precludes the pupil from graduation at the end of the term. Mr. Lindsay said that the pupil who drops out after the first examination must be one who is not ambitious and was rated by him as one who is "too lazy to work."

Secondly, the October 1st examination is scarcely a fair test in some of the studies, because of lack of books, and therefore the examination must be one of justice to the pupils. Especially is this true with regard to history and geography, both of which state books are not in the hands of dealers in sufficient number to equip all pupils. The history has been adopted by the state board of education as a text book but has not been issued as a text book by the state printing office, and because of the frequency of changes by the state board dealers are not taking risks by overstocking themselves.

According to the new system graduation will be based on (1), a written examination in literature, language, arithmetic, history and civics, and spelling and word analysis during the eighth year; (2), a written examination in geography and physiology in the seventh or eighth year; and (3), the excellence of the pupil's deportment and work during the year as reported by the teacher. Every set of examinations will consist of two questions in each subject and one of the two questions in the sixth set will be a question given in a previous examination of the year, giving the schools running nine months a slight advantage.

The board reserves the right to refuse a diploma of graduation to any pupil who does not (1) make an average of 50 per cent on each of the subjects given; (2) make an average of 75 per cent on the year's examinations; (3) make a previous record in geography and physiology in Fresno county or take an examination in these subjects during the eighth year, and (4) have the recommendation of the teacher for good work and deportment. Following this plan of marking, failure or under percentage in one examination set of papers necessarily cannot shut out the pupil from graduation, because he has four or five more examinations in which he may overcome the loss in markings in the first.

Mr. Lindsay points out two other features in the new system that have generally been overlooked or the full import of which has not been appreciated. One of these is the concession that after the examination papers have been graded and the grades recorded the teacher may call at the superintendent's office for the marked papers in the interest of the pupil. Therefore after an annual written examination the pupil has had no further interest in the matter after he has learned the all-important fact in him or her whether promoted or not.

Under the new system every pupil may have his or her examination paper and from the grading mark learn as to which question there has been failure or deficiency. Knowing this and if the pupil has ambition or manifests interest in the school term studies, it will be easy to turn to the text book and supply the deficiency. And as an incentive for this extra study between examinations on failed or deficient answers, there is the promise of the examiners that "one of the two questions in each subject given in a previous examination of the year." As Mr. Lindsay points out, to be sure of the correct answers to one of the two questions in each subject at the sixth and final examination, the pupil has only to follow up in the text book all answers on which perfect has not been marked.

For the next naturalization day in the Superior court on the 20th prox., there are at this time twenty-three applications of aliens on file with and posted by the county clerk. The applications represent nine nationalities as follows: Armenians, 4 each; Russians, 4 each; Englishmen, 3 each; Germans and Danes, 2 each; French, 1, and Austrian, 1 each.

APPLICANTS FOR NATURALIZATION

LICENSED TO MARRY

Licenses to marry granted yesterday were to the following named: James R. Vines, native of Oregon, aged 24, and Edith Briner, native of Missouri, aged 20, residents of Porterville, Tulare county.

Edward K. Karibian, aged 21, and Esther A. Avakian, aged 18, natives of Armenia, residents of Fresno.

Armstrong, native of New York, aged 24, and Carrie J. Carter, native of California, aged 21, residents of San Francisco.

RAILWAY PASS CASE HAS BEEN DISMISSED

CHICAGO, Nov. 17.—The case against Bernard Love, the railroad employee who obtained a pass for Charles J. Lundblom, a consumptive, was dismissed today, the federal authorities deciding that Love got the pass as an act of charity.

Lundblom was arrested Sunday while en route to Denver in search of health and Love was arrested the following day, charged with violating the interstate commerce act. The case against Lundblom was dismissed yesterday and he was given transportation to Denver today.

UNITARIAN PULPIT.

The Devil Banished. The old theology teaches a contradiction. An all-wise, loving, omnipotent God, who seeks only the good of man; an active, malignant Devil, who seeks to thwart God's plans and to ruin man. It holds out the hope that eventually this Devil will be banished. This hope Darwinism fulfills. Instead of an Eternal God plus an Immortal Devil "The Gospel According to Darwin" rings out the great truth, "There is no god but the Good." It bases its faith upon no documents—save the broad pages of the Book of Nature, with its hieroglyphs of green and gold, on no miracles save the old but ever new ones, of the sunrise, the springing of the grass, the egg in the downy nest, on no voice save that eternal choral in which the thunderous diapason of the surf upon the crags blends with the singing of the morning stars. This is God's world. Darwinism leaves no place in it for an all-powerful, malignant Devil.

J. A. CRUZAN, Field Agent.

Special Millinery Sale

\$5.00

For Trimmed Hats Worth \$7.50

We are placing on sale a big lot of these special hats at this special price.

They are all attractive styles which we call \$7.50 values, but they are really worth up to \$10.

There are lots of different colors to select from and we'll guarantee you'll recognize them as the best \$5 values you have ever seen.

New 98c Waists

Several new numbers of these popular waists arrived yesterday and will be placed on sale today.

There are many different styles to choose from, all worth at least \$1.50. Our special price is 98c.

Good Untrimmed Shapes Worth \$2.50 and \$3.50 for Only \$1.49

A special line which we bought from an overstocked manufacturer at a great big reduction. They are made of good scratch felts, plain felts and corded silks. All are stylish effects and all are worth a great deal more than our sale price.

We also show a full line of other millinery accessories and we will trim hats to order for only 50c when the materials are bought here.

Fine Tailored Suits Really Worth \$30 to Sell at \$23.75

WEST SIDE HOTEL MAN IS CONVICTED

S. Notale Found Guilty of Selling "Booze"

Jury in Police Court Returns Verdict in Quick Order

It required but a few minutes deliberation, during which three ballots were taken, for a jury in the police court yesterday to convict S. Notale of selling intoxicating liquor without a license. Judge Briggs will pass judgment at 10 o'clock tomorrow morning. Frank Kautz, city attorney, conducted the prosecution, and the defendant's interests were looked after by Attorney W. D. Crichton.

The trial began at 10 o'clock in the forenoon with the selection of the following jury panel: Examined: J. A. Lane, Frank Burleigh, S. P. Glasgow, W. A. Graham, I. H. Walton, C. H. B. Klette, Sam Hines, R. L. Heflin, W. M. Cardwell, J. W. Bell, Frank Love and W. D. Brown. One of the first twelve in the jury box was excused at his request.

The trial continued in the afternoon with Frank Hassel, Herman Morganti, Frank Antognoli, Frederick Mortimer, city license collector, and William Dunn, deputy city clerk, testifying for the people. The first three named were the men who secured the intoxicating liquor from Notale. Each of the witnesses gave the same testimony, asserting that he had secured several bottles of beer from the man who leased the Colombo Hotel at 1121 G street from A. G. Laverone, the owner.

Licenses Collector Mortimer and Deputy City Clerk Dunn testified that Notale did not have the necessary license to sell intoxicating liquors of any kind. For the defense, Laverone, Joe Lafort, B. Guidi and A. Lazzerone deposed that the trial had entered the hotel and created a disturbance. As a result, the men were ordered from the place, but no liquor had been sold to them.

After counsel had argued the case, the jury retired and returned a verdict of guilty within twenty minutes.

REAL PROHIBITION
FOR PORTERVILLETrustees Adopt a Stringent
OrdinanceRegulates the Druggists and
Physicians—Jail For
Second Offense

PORTERVILLE, Nov. 17.—At the meeting of the city council held in this city last evening the much heralded liquor law, which has been prepared under the direction of the Good Government League, was submitted and passed the first reading. As a member of the council said after the reading, it certainly is a "rock-ribbed" and copper-ripped regulation and it makes it a misdemeanor for one to even think of a drink unless safe-guarded with a physician's certificate and then done within the four walls of one's own home. Liquor laws which have been in force in all parts of the state, and which have been tested in the courts from every angle, were drawn upon for the regulation and the result is an ordinance which has been called by competent attorneys one of the most drastic in effect in California. In the main, liquor may be sold only upon the prescription of a physician by license for use only when the physical condition of the patient indicates its use and if it appears that any person, such physician is thereafter barred from writing any similar prescription for a period of one year. Druggists to obtain permits must subscribe, under oath, to a long list of requirements, and it is then provided that the council may arbitrarily refuse to issue such permit if it sees fit. Any license may be rescinded at any time for cause. Right to search premises of any sort is conferred upon the police officers, and it is made their duty, when places are under suspicion of being storage room for liquor, to search for the same and take into their possession any such liquor or vessels for containing them found in such premises. All illegally stored intoxicants are designated "common nuisances" and may be destroyed upon

A Startling
Statement
New York Medical Authorities Claim Dyspepsia to be
a Pre-Disposing Cause
of Consumption

The post-mortem statistics of the big New York hospitals show that cases of consumption are due, at least indirectly, to undigested food, and lead to tuberculosis. Dyspepsia weakens the body and ruins the weakened, irritable stomach being unable to digest food. The body does not receive the required nourishment and the victim becomes thin, weak and haggard. As a result, the body becomes a fertile field in which the germs of disease may lodge and flourish. Therefore the person who permits dyspepsia to progress unhindered is guilty of contributing toward the development of one of the most insidious and fatal diseases known to mankind. Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing. This remedy has been named Rexall Dyspepsia Tablets. Certainly no offer could be more fair, and our offer should be proof positive that Rexall Dyspepsia Tablets are a dependable remedy. Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and \$1.00. Remember, you can obtain Rexall Remedies in Fresno only at our store—The Rexall Store—The Monroe Drug Co.

MAKES INQUIRY OF
ORIENTAL LABORR. J. Pearce, U. S. Agent, at
PortervilleSentiment Against Employ-
ment of Orientals Strong
in Citrus Belt

PORTERVILLE, Nov. 17.—R. J. Pearce, a special agent of the state bureau of labor, who is gathering statistics for the government department of labor and commerce, is here looking into the employment of Hindus and other Orientals in this orange district. Mr. Pearce stated when he arrived here that he had been informed a crew of Japanese had been sent here and that they had gone to work in the Zante section. Mr. Pearce's announcement created considerable excitement and no little incredulity. However, a volunteer search party was sent out through the Zante section but no trace of any Japanese could be found. Public opinion is very much opposed to the importation of any Orientals. A white labor agent who approached the manager of a local packing house yesterday with an offer of Asiatic help narrowly escaped a rough handling. Pressure was brought to bear yesterday upon a grower of the Zante district who had signified his intention of signing up a few Hindus to pick his crop and he was rapidly persuaded to change his mind. Arrangements have been made by the committee of the Chamber of Commerce, entrusted with the entertainment of the delegates to the grainery convention to convene here tomorrow, for the housing of 125 visitors. As this is the height of the orange season, hotels and rooming houses were already filled to repletion and the committee was obliged to call upon the residents generally for donations of their spare rooms. The response to this call was immediate and liberal, and within twenty-four hours sufficient accommodations were had.

Entries for the butter scoring contests are beginning to arrive, the samples to be put upon display at North Hall tomorrow afternoon and will be judged by Fred Hopper of the University of California and C. L. Mitchell. Gold and silver medals are offered for the first and second prizes and cash awards to the amount of \$250 will be offered for the first, second and third samples. The business sessions proper of the convention will begin tomorrow morning. Friday evening the Chamber of Commerce will serve a banquet in the Congregational church parlors and Saturday morning the delegates will be taken for a ride through the orange groves of this section.

First pick of the 1909 crop of the Early Washington Navel oranges has arrived in the Chicago market and the officers of the Exchange have been advised by wire that fancy prices will result until after the Thanksgiving time. The fruit which has been shipped thus far has been well colored and contains a satisfactory amount of sugar. Floridians are in the Eastern markets also, it is said, but they are making little headway against the fruit from this section. Light frosts of the past few nights are hastening the ripening of the fruit and it goes forward from this time on will be practically in full color.

At a meeting of the stockholders and the directors of the Porterville Mutual Building and Loan Association, the incumbent officers were unanimously re-elected. H. C. Carr, cashier of the First National bank, was chosen president; G. L. Robinson, drug agent of the Pacific Coast, was chosen vice president; and A. J. Newbury, of the Williams and Young Co., secretary. Pioneer Bank, treasurer. The annual report of the secretary stated that a total business was done for the year of almost \$140,000 and that an expense of \$14,000. The total income of the company was a little more than \$25,000, and the stockholders were paid 10.8 per cent annual dividend.

Word has been received here that the Lindsay football team has not disbanded as was reported earlier in the season and that instead of the faculty opposing the high school athletes were very much in sympathy with them. Lindsay has sent a challenge to the Porterville boys and while they will play all of their allotted games in the league schedule they will at least play a part of them. Harry Gethum, an employee of the Visalia Electric road, at work on the construction gang, fell at Lemon Cove in a badly injured condition. He was at work Sunday upon a pile driver and holding a plank upon which the weight was to rest while a pile was being set. The plank slipped slightly to one side of the plank, throwing it about with considerable force and striking the workman in the side. Three ribs were broken and it is also said that the hand is injured internally.

KILLED HER CHILD
TO PLEASE LOVERNegress Says Man Threatened To Leave
Her Unless She Got Rid
of Child

WASHINGTON, Nov. 17.—A remarkable murder story was revealed here today following the confession last night of Mary Bessie Howard, a negro, that she had killed her 5-year-old daughter because Raymond Carter, the man she loved, threatened to leave her unless the child was sent away.

Taking her offering into Palmers' arms, near East Pleasant, Md., the woman said, she slashed her throat with Carter's razor. Then, after cutting the body with leaves, she wiped the blood from her hands with a newspaper and returned to Washington.

Her description of the crime was revoltingly gruesome. She said she had promised to take the child to the country and that the little one seemed very happy at the prospect. She said she took the razor in her hand as she assisted the girl through a barbed wire fence and the child innocently turned to her and said: "What are you going to do?" Without answering the question, she said, she held the little one tightly and deliberately cut her throat. The woman said Carter knew nothing of the murder.

FRAUD PERPETRATED
BY REALTY MENPure Sand and Swamps Advertised As
the Finest Farming
Property

WASHINGTON, Nov. 17.—Schemes to defraud the farmer and the would-be-farmer, meaning the city man who is attracted to the country by specious advertisements—are receiving the attention of the department of Agriculture and it is probable that Secretary Wilson in his forthcoming annual report will sound a note of warning to the overcredulous.

Tracts of almost pure sand left after the cutting of pine trees have been advertised as farming lands. The most interesting description of swamps are described as "prizeless possessions," and all sorts of inducements are held out to attract purchasers of these alleged worthless lands.

The Best from a Million Bushels
—Del Monte Tomatoes

A Tomato, you know, is nearly all water. If you take off the skin, there is not enough fibre left to hold it together, so that in stewing Tomatoes, you never add water—there is enough without it.

Some canned Tomatoes, most brands, in fact, are watery and mushy, so that when you buy a can you buy more water than real Tomato meat. Water, at the price of Tomatoes, is expensive. In the Del Monte brand we take out most of the water. We pack over a million bushels of Tomatoes a year, under 400 different labels. Some sell as low as four or five cents for 25c, but Del Monte retails at 12 1/2c per can. But if you will weigh the actual Tomato meat of the cheaper can, after draining off all the water or juice, and then do the same with Del Monte, you will find that Del Monte contains two or three times

as much actual Tomato meat as other brands.

Del Monte is the choice pack of the world's largest canners. We pack all grades of Tomatoes. All are wholesome. All are packed under the most sanitary conditions.

But, they vary in the quantity of Tomato meat contained, as compared to the water or juice. A can of Del Monte brand is nearly all Tomato.

Del Monte Tomatoes are vine-ripened, carefully washed, peeled and cored. It is impossible to have all Tomatoes on even one vine alike. For the Del Monte brand we choose the best. Greater care is used in the handling. A large percentage of the water is taken out. You get the best we know how to make. You are always sure if you get Del Monte.

Del MonteCanned Fruits and Vegetables
Packed Where They Ripen
The Day They're Picked

We Pack Other Brands as Good as Del Monte

But you have no way of knowing them. We put up over four hundred different brands of canned and dried fruits, vegetables, jams, jellies, preserves, catsups, honey and condiments. Most of the brands are for dealers who own their own labels. Quality does not affect the wholesomeness of the goods. All packers, we believe, put up only wholesome

goods. Quality refers to flavor and the quantity of solid vegetable or fruit meat as compared to the water or juice. If you were able to select all other good brands from those of cheaper quality, you would get exactly the same quality as you obtain in Del Monte, but there is no way in which you can tell which are safe, except by specifying Del Monte.

GROWERS ARE OFFERED 3 CENTS FOR 3 YEARS

Consolidated and Independent Packers Are Making Proposals But Meet With Little Success; Clear Market Predicted by May 1

During the past few weeks, Consolidated and Independent packers alike have been approaching local raisin growers with an offer to purchase their crop for the next three years at a flat rate of 3 cents. The activity of the bulls in the market during the past three or four weeks has led to this sudden move.

The payment of 3 cents is contingent only, however, the signing of a contract to deliver the crops of 1910, 1911 and 1912 being necessary to secure its payment.

Despite this offer it was stated yesterday that the growers are giving it little encouragement because it is believed that it will prevent a better price should conditions arise to guarantee a 4 cent price.

The great change which has come over the situation during the past month, has led raisin growers to believe that after this year 3 cents will be the minimum price paid for raisins for some years to come and consequently they do not wish to tie themselves down to a minimum price.

From figures which he has just prepared, L. F. Giffen made the announcement yesterday that without a doubt the supply of raisins now on hand will all be in the hands of the consumers by the first of May, leaving no supply from that time until next September and leaving a clear market for the growers next year.

In coming to this conclusion, Giffen figures that during the past ten months 70,000 tons of raisins have been moved from Fresno. He stated yesterday that from January 1 to September 1, a period of eight months, 45,000 tons of raisins had been moved. During the past two months, 25,000 tons of the 1909 crop have been moved, making a total of 70,000 tons moved or about 7000 tons a month.

At the present time, Giffen estimates that there are 25,000 tons of raisins on hand, including Sultanias, Thompson Seedless and others. This class of raisins is figured in the amount of raisins moved during the first ten months of 1909.

The holdover from the 1908 crop, 35,000 tons, went out of Fresno at the rate of 4000 tons a month. Giffen figures that the present holdover will go out at the same rate, thus giving the

packers here six months to dispose of what they have and what are now in the hands of the growers and clearing the local situation by May 1.

Giffen stated that the price of fancy seedling in the East had been advanced a quarter of a cent, the present price being 5 1/2 to the jobber.

"This price is now the minimum price for fancy seedling," said Giffen yesterday. "And it has been raised three-quarters of a cent since we started to buy. When we began buying fancy seedling we were selling in the East for 4 1/2 cents."

Giffen also stated that the price on special brands had gone up high as 5 1/2 cents.

"It is about time the growers here were waking up and getting the benefit of some of the prosperity which is now sweeping the East," declared Giffen yesterday. "The Eastern farmers have had three big crops and three big prices; all the factories are again booming and the effect of the panic has almost entirely been swept away. Here in one little isolated spot on the map, however, a few are crying that they are starving. I believe, though, that Fresno will be an important factor on the map next year and for several years to come."

FRESNO TO AID MODESTO IN FIGHT FOR ORPHANAGE

Delegation From North Pledges Its Support to This County in Its Next Attempt to Secure State Normal School

The Chamber of Commerce at its meeting last night not only expressed itself in favor of the establishment of the proposed new state trades and training school for orphans at Modesto, but it pledged itself to boost for Modesto and co-operate with the other counties of the San Joaquin valley to bring the institution to that city. Resolutions bringing this result about were adopted after a delegation from Modesto headed by Superior Judge L. W. Fulkner had been heard on the subject. It was stated by the members of the Modesto delegation that if Fresno after it had helped Modesto to secure the orphanage desired the aid of Modesto for any undertaking it would be cheerfully given. Judge Fulkner and his townsmen were assured that their help would be needed and even asked for probably at the next session of the legislature, when Fresno would again make a fight to secure the state normal school.

"Isn't it a remarkable thing," asked Judge Fulkner during the course of his remarks, "that the San Joaquin valley with all its importance has been so neglected in the matter of state institutions? At present we have only one establishment maintained by the state and that is the original hospital for the insane located at Stockton. It is time that we awakened to our opportunities and stood together for mutual benefit. If we unite and all work together there is no reason why in the future we should not get almost anything within reason that we ask for."

Among those present at the meeting was State Senator George W. Carter, who also spoke on the subject, and declared that he would do everything in his power to secure the legislature.

"The coast legislators are all united," said the Senator, "and we should be so here in this section of the state. We must unite if we are to get all that is coming to us."

It was stated by the Modesto delegates that the support toward securing the orphanage had already been secured from the counties and that the Modesto delegation was certain to join the ranks of the boosters when asked to do so in the future. The Modesto party consisted of Judge L. W. Fulkner, J. J. Office and D. E. Saunders. The northern section of the state is already in the field for the orphanage and among the cities contending for the institution are Chico, Placerville and Auburn.

WILL HELP COALING.

A committee consisting of Truman Hart, H. H. Welch, J. E. Dickinson, D. H. Allison and George W. Carter was appointed to secure a coaling bill. The committee met on the 26th of November, when about 250 business men of Los Angeles are to make a trip through the oil fields and be entertained in town later. It is likely that Senator Carter will be on hand and Senator Cartwright has also been invited to be present and deliver an address.

The Senator during the discussion regarding the coming event at Coalton took occasion to remark about how the oil district, though perhaps actually the richest section of the county, had been neglected in the past, and urged that in the future Fresno get in

MILLS TO CLOSE DOWN NEXT MONTH

Lumber Operations in the Mountains About Finished

Hume-Bennett Company To Continue Work Through-out Entire Winter

Announcement was made yesterday that with the exception of the Hume-Bennett plants, practically every lumber mill now operating in the mountains will close down next month, December 15. The exact date of closing depends altogether on the weather. If it continues as it is at present, the mills will run until December 15, but if the heavy winter storms set in, it will be necessary to close the plants by December 1.

The output this year will be in the neighborhood of 30,000,000 feet, or about the same as the output for 1908.

Ira H. Bennett, vice president of the Hume-Bennett Lumber Company, stated yesterday that the Hume-Bennett mills will run all winter unless the weather becomes such that it will be impossible to operate in the timber. He said, when asked what the plans of the company were for the winter, that the Hume-Bennett company has not operated much this summer, owing to the fact that it has been practically rebuilding its plant. Bennett stated yesterday, however, that work will be continued this winter and that preparations are being made for a big run next year. The plant will be repaired throughout during the winter and will be in first class shape by the time the heavier timber cutting operations begin in the spring.

From the offices of the Fresno Lumber and Lumber company it was announced yesterday that that company would run only as long as the weather permits. Last year this company ran its plants until the middle of December, and it was stated yesterday that if the weather continues as it has for the past few weeks, the date for closing will be set for December 15 this year. It is not probable that this company will operate later than this date.

From reports which have been received in Fresno, it is evident that the storm in the mountains were not as bad as was at first reported. The Fresno Lumber company reported yesterday that its operations had not been checked by the storm and Vice President Bennett of the Hume-Bennett Lumber company stated that there had been a light fall of snow on this company's property and that it had in no way hindered operations.

CHINESE DIPLOMAT RECEIVED.

WASHINGTON, Nov. 17.—Baron Liang Kuei, accompanied by Minister Wang and other members of the Chinese party, were formally presented to the secretary of state today. The secretary expressed the hope that the baron's visit to the United States would be both pleasant and profitable. Baron Liang is a brother-in-law of the Imperial highness, the prince regent.

He will investigate matters connected with governmental methods.

VERDICT IN TONG CASE.

SAN FRANCISCO, Nov. 17.—The coroner's jury sitting in the case of Yee Quong Wah, one of the Chinese killed in the tong war between Yees and the On Yicks, returned a verdict of murder at the hands of Ah Joe and Gin Yuc. Both men are held by the police.

KUTNER'S

National Red Cross Stamps for 1909 are Now on Sale

We desire to announce the arrival of the New Christmas stamp issued by the National Red Cross Society. The stamps are a penny each and are sold without a profit. All the funds are sent to State Headquarters in San Francisco to help in the crusade against the Great White Plague.

Here's what LaFollette has to say about Red Cross Stamps:

"Here is a campaign that merits generous support. The money received from the sale of these stamps—at one penny each—is spent in a noble cause. With your pennies you can enable the Association to teach the people that consumption is contagious; that consumption is curable; that consumption is preventable. Help spread the knowledge that will in time wipe out this dread disease."

Cheapness in Hair Goods

IS NOT THE FIRST CONSIDERATION.

Free women care to wear hair goods that show any sign of inferiority, that's why you will find only the very best grades of hair goods here. We offer a superior quality wave switch, 28 inches long for \$8.00 that women say they prefer to the lower priced ones about town.

WILL NOT APPEAL IN AGUILAR CASE

Convicted Murderer Content To Save His Neck—Criminal Calendar Cleaned Up

Attorney Bernard announced yesterday that the Special, Frederico Aguilar, will not appeal from the jury's verdict finding him guilty of murder with life imprisonment as the penalty for the crime.

Just Austin has disposed of the cases on the criminal calendar of his department and the term jury has been discharged.

Marie L. Dwyer, administratrix of estate of John Dwyer, Jr., asks authority to sell personal property which it is impossible to divide or distribute before close of the estate, namely liquors, cigars, groceries and provisions, a large and well sprung mattress, a new bed, double bed room, and a duck-club outfit consisting of coat, hat and bedding. Petition has also been made to set aside for her use the wax and for two children household goods and furniture appraised at \$200.

Ann Huff, as guardian of the estate of Lindley F. Huff, has been permitted to pay herself \$100 for her maintenance and support. The youth has been for six months from her home, has been employed and earning some money, but owing to sickness and inability to keep himself in steady employment compelled her to incur a liability of \$100 in his support, and the necessities of life. She asked to be reimbursed.

WORK STARTED ON DRY CREEK BRIDGE

City Engineer Jensen has made the survey for the location and the grades for the construction of the new concrete bridge across Dry Creek canal at Belmont avenue. Work will probably commence next week on the actual building. The canal is supposed to be at this time dry, but there is a small flow of water which the contracting company is carrying off in a flume so as not to impede the setting of the concrete piers and embankments. A temporary bridge will be set up fifty to seventy feet on the south side of the bridge location that will be the revenue may go on unimpeded while the bridge building progresses.

Do You Own a Capitol Buggy?

Of course you may not own any buggy at present, but if you are contemplating buying one be sure that it's a "Capitol Buggy," because Capitol Buggies are the best. They will give you just the service and wear that you want. The prices are moderate, and we guarantee every one we sell.

URGENT TAFT TO PARDON SHERIFF

Georgians Say Imprisonment of Official Will Have Bad Effect Upon Ignorant Negroes

RISING PAWN, Ga., Nov. 17.—A petition to President Taft to pardon Sheriff Joseph F. Shipp and co-defendants, signed by virtually every citizen in this vicinity, says in part:

"We view with grave fear the effect that the fulfillment of the sentence will have upon ignorant and irresponsible negroes, increasing beyond question the danger to the women of the South."

FREE FROM MURDER CHARGE.

FREEDOMIA CITY, Okla., Nov. 17.—Maud Chick was discharged from custody today at her preliminary hearing on the charge of being accessory to the murder of H. D. Gannon, whose body was found on the roof of an office building two weeks ago.

LEADVILLE, Colo., Nov. 17.—Frank Loftis, William Hasty and James Hays were found today frozen to death four miles west of the Hilltop mine in the Horseshoe district.

AYER'S HAIR VIGOR

Ingredients: Sassafras, Glycerine, Quinine, Balm of Peru, etc. Show this to your doctor.

Ayer's Hair Vigor promptly destroys the germs that cause falling hair. It nourishes the hair, restores them to health. The hair stops falling, grows rapidly.

Ayer's Hair Vigor just as promptly destroys the germs that cause dandruff. It removes the dandruff, restores the scalp, and keeps the scalp clean and in a healthy condition.

Does not Color the Hair
